Please provide and label the best 20 pictures from this list.

We know it can be hard to choose, but selecting the best 20 photos is ideal. If narrowing it down is impossible, you're welcome to include up to 30 more, for a total of 50.

During filming, we may ask for additional pictures if needed, but don't overthink the process; the stories and memories are the heart of the film. If you don't have some of these pictures, that's okay!

If relevant details (year, names, locations) aren't on the back, a sticky note with rough estimates is helpful.
